Our Company

MATIN TRADING is a young & dynamic company that has established itself as one of the most efficient trades in Middle East. Our staff is committed to you & your needs. It acts as principal in most trading activities but always with a customer service focus , intended to add value to its clients business .

On a short span of time our leadership, honesty, transparency, ambitions & dedications to serve our major & minor customers was sought after & always would respond with meaningful contribution to our agencies, principal customer & security as well.

The company has such impress in international trade and has formed the global distribution and information net. We have established long and stable co-operation with companies Middle east and Fareast region. In this way, it enable our customers to concrete on their core business , their by creating a "Win – Win relationship ".

Our Vision

To be leading supplier of quality products and services , which enhances client's business and leads to ` Total Customer Satisfaction `

Our Mission

- To emerge as a ` Under One Umbrella ` for all projects related requirements of our clients
- Strict and scientific Management.
- Prompt Response and Timely deliver
- Supply quality products and services at most competitive prices
- Develop sound industry knowledge & Core competencies
- Develop business relationships with manufactures / vendor globally

Over the year Matin has grown operationally financially need in terms of its geographical reach. Today Matin is an established name for supply of quality materials and equipments with competitive pricing and shorter delivery timeframes which helps our clients meet projects deadlines and thereby derive enormous commercial benefits.

Our Team

We believe our human resources is the most important asset of our company. We are a group of individuals who have brought in pool of varied experiences and intellect to the company. A common element that binds our efforts is a drive to serve customer requirements in all situations.

Quality Management

We have an effective quality Management System (QMS) with well defined set of policies, processes and procedures for the core business areas in our organization. Our QMS is aimed to identify measure ,Control and improve the various processes that will ultimately lead to improved business performance.

Vendor Database

Associated vendors are an integral part of any supply chain business. We have built an active vendor database of local and international quality companies providing us access to varied products and services. Following QMS processes , we are able to better evaluate and register quality vendors. Performance of vendors is evaluated on regular bases to ensure good quality products are available at competitive prices.

Markets

Our target market is the regions Oil , Gas , Petrochemical , Aluminum , Power and the Marine Industry
